

5+ years of experience designing web and mobile products across fintech, crypto, SaaS, EdTech, hospitality, sports management, and mobile-first platforms.

My focus is on turning complex product logic into clear, usable, and development-ready interfaces through product flow analysis, UX audits, wireframing, design systems, usability improvements, AI-assisted workflows, and close collaboration with product owners, developers, and stakeholders.

EXPERIENCE

July 2024 - Present (1yr 10mos)	Space Whale / Middle UX/UI Designer <u>Xbo.com</u> Worked on a live crypto-fintech product across web, CRM, and mobile interfaces, including wallets, deposits, trades, onboarding, virtual cards and asset management. Key achievements: Redesigned web and mobile onboarding that helped to reduce user drop-off by 45%. Reworked the core functionality that helped users complete deposits 2x faster. Shipped one of the biggest products improvement in the company (Xbo virtual card). Led mobile app improvements. Methods: Product flow analysis, Existing UX review, Friction mapping, Heuristic review, Prototype review, Design iteration, AI-assisted research synthesis.
Aug 2022 - July 2024 (2 years)	Fivecube Agency / Middle UX/UI Designer Designed web and mobile products for multiple client projects with different business models, product logic, and user needs. Converted ambiguous client requirements into structured user flows, wireframes, responsive layouts, reusable UI patterns, and developer-ready designs. Used stakeholder clarification, product structure mapping, low-fidelity exploration, information hierarchy, and design system thinking to move projects from early ideas to usable interfaces. Collaborated with stakeholders, product teams, and developers to improve product logic, usability, visual consistency, and handoff quality. <u>LoopHQ</u> - Productivity platform Mapped how communication, media, and workflow actions connect inside one workspace, structured interface logic around focused task completion <u>Intrac</u> - Sports management platform Redesigned an admin portal and client management dashboard, improved information structure and workflow automation, helping reduce administrative time by 30%. <u>Norma</u> - BI tool for hospitality Designed dashboard experiences focused on data hierarchy, mobile readability, and faster access to operational insights. Methods: Requirement clarification, Product structure mapping, Wireframing, Information hierarchy, Responsive design, Design systems, Developer handoff.
Aug 2021 - July 2022 (10mos)	Techlexity / Junior UX/UI Designer <u>Wild Minds</u> - Meditation & manifestation Designed mobile interfaces for an iOS and Android meditation and manifestation app across core user flows, wireframes, UI screens, app structure, and visual consistency. Used mobile flow mapping, wireframing, QA feedback, and developer handoff to support a calm, intuitive product experience.

INTERNSHIP

Apr 2021 - Jul 2021 (4 mos)	Wevoid / UX/UI Product Designer (Intern) Learned and applied interface design fundamentals: grids, typography, components, auto layout, color systems, style guides, and basic product design workflows.
--------------------------------	--

CORE SKILLS: Data-informed design, User research, User flows, Wireframing, Prototyping, A/B Testing, Design system, Usability testing, Information architecture, Product thinking.

TOOLS: Figma, FigJam, Protopie, Framer, Photoshop.

AI-ASSISTED WORKFLOW: Claude, Perplexity, Google Stitch, Figma AI, Higgsfield, Midjourney, Hera.
