UX/UI Designer / Product Designer

+34 666 292 037

UX/UI Designer with 5+ years of experience designing web and mobile products across fintech, SaaS, EdTech, hospitality, sports management, and crypto. Strong background in user flows, wireframes, prototyping, design systems, mobile app design, usability improvements, and developer handoff.

I focus on turning complex product logic into simple, clear, and usable interfaces. Experienced in working closely with product owners, developers, stakeholders, and QA teams to improve user journeys, increase conversion, and deliver scalable product design solutions.

EXPERIENCE

July 2024 - Present

(1yr 10mos)

Space Whale / Middle UX/UI Designer

Xbo.com

Designed web, crm and mobile interfaces for crypto and fintech features, including wallets, deposits, onboarding, virtual cards, and asset management. Created user flows, prototypes, UI layouts, reusable components, and developer handoff materials in Figma. Worked closely with product owners, developers to improve key product flows and deliver user-friendly solutions.

Key achievements:

- Redesigned web and mobile onboarding flow, reducing user drop-off by 45%.
- Improved deposit flow by reducing the number of steps required to complete the main user action, created faster navigation between crypto and fiat deposit pages, helping users complete transactions more efficiently.
- Designed a multi-wallet system that helps users clearly understand how their assets are distributed across different wallets.
- Created the XBO virtual card flow, allowing users to convert and spend crypto more easily.
- Supported mobile app redesign by improving interface structure, visual consistency, and overall usability.

Aug 2022 - July 2024

(2 years)

Fivecube Agency / Middle UX/UI Designer

Designed web and mobile products for multiple client projects across SaaS, productivity, hospitality, and sports management domains. Was responsible for user flows, wireframes, prototypes, UI concepts, responsive layouts, design systems, and developer handoff.

Worked closely with stakeholders, product teams, and developers to clarify requirements, improve user journeys, and deliver clean, scalable, and user-friendly interfaces for different business needs.

LoopHQ - Productivity platform

- Designed a platform that combines communication, media, and workflows into one interface; created user flows, prototypes, UI layouts, and reusable components to simplify complex workflows.

Intrac - Sports management platform

- Redesigned an admin portal and client management dashboard for children's sports organizations, improved information structure and workflow automation, helping reduce administrative time by 30%.

Norma - BI tool for hospitality

- Designed iOS and Android interfaces for a Business Intelligence tool in the hospitality industry. Created data-focused dashboards, mobile user flows, and UI components to help restaurant and hotel teams access real-time insights and make data-driven decisions.

Aug 2022 - July 2024

(10mos)

Techlexity / Junior UX/UI Designer

Wild Minds - Meditation & manifestation

Designed mobile interfaces for an iOS and Android meditation and manifestation app. Created user flows, wireframes, prototypes, and UI screens for core app features.

Worked on product structure, interface logic, and visual design. Collaborated closely with backend, frontend, and QA specialists to test the final product, improve implementation quality, and prepare design materials for development.

Key contribution:

- Helped create a calm, intuitive, and visually consistent mobile experience focused on daily rituals, meditation, and personal intention-setting.
- Built product frameworks, app architecture, and interface design for key mobile flows.

INTERNSHIP

Apr 2021 - Jul 2021

(4 mos)

Wevoid / UX/UI Product Designer (Intern)

- During the months of internship, I learned the basics of fundamentals such things as: Grids, fonts & typography pairings, design components, auto layout, styleguide (colors & fonts)

CORE SKILLS

Data-informed design User research User flows Wireframing Prototyping Design systems Usability testing
